

EBSI-VECTOR webinar series – invitation #1

Your personal invitation

Let's dream... towards a future where education knows no borders.

Join us to experience the first public sector blockchain infrastructure in Europe towards a real interoperable European Education ecosystem.

Details and registration information is below.

Date: 28th June 2024

Where: online (*Instructions are sent by email after you register [here](#)*).

Time: 10:00 – 11:00 CEST

Agenda:

10:00–10:05 CEST Welcome and introduction

Manuela Costone | EBSI-VECTOR | CIMEA

10:05–10:15 CEST Trends in the educational landscape and the EBSI added value

Maria Oreshnikova | EBSI-VECTOR | CIMEA

10:15–10:30 CEST How to join the EBSI-VECTOR revolution

Samuel Gómez | EBSI-VECTOR | GATACA

10:30–10:45 CEST Your next steps with EBSI-VECTOR

Cristina Martínez | EBSI-VECTOR | IZERTIS

10:45–11:00 CEST Q&A

Manuela Costone | EBSI-VECTOR | CIMEA

Why you should attend

Our project aims at creating a blockchain-powered education infrastructure for learners and professionals, where educational achievements are transferred across international borders. During our webinar, the EBSI-VECTOR team will explain you how to foster global collaboration, innovation, and accessibility and how you can take an active role in this initiative. You can take part in the testing, validation, and implementation of the European Blockchain Services Infrastructure (EBSI). We invite you to know more about this innovative technology! [Link](#)

Who we are

EBSI-VECTOR is a project co-funded by the European Union, under the Digital Europe Programme – Grant Agreement n° 101102512. EBSI-VECTOR is a pioneering initiative for the integration of EBSI into the educational sector, providing students and institutions with a secure, decentralised, and interoperable ecosystem for managing educational data. We aim to make educational processes more efficient, reduce administrative overhead, and provide students with greater control over their academic records. The mission extends to ensuring that learning, whether formal or non-formal, is portable across various educational and professional platforms. The educational ecosystem on EBSI aligns with principles such as transparency, security, decentralisation, accessibility, and collaboration. These values guide the development and implementation of blockchain-based solutions in education.

With a strong commitment to innovation, global collaboration, and personalised education, EBSI-VECTOR aims to empower learners of all ages and backgrounds to achieve their full potential. Blockchain technology can bring positive and transformative changes, enhance various aspects in different fields, including education. We are dedicated to reshaping the educational environment by utilising the blockchain technology made available through EBSI.

Yours sincerely,

EBSI-VECTOR team
